

Selecting Family Silver

Dignified simplicity of design distinguishes Birks "Georgian" pattern of table silver

YOU buy silver tableware only once in a lifetime, and too great care cannot be taken to secure just what will give you most pleasure throughout the years.

Birks table silver is generously heavy, the designs are correct and distinctive, and, because it is made in our own workshops, it has the added attraction of a moderate price.

The Cafeteria

There is little or no need to boost the Union Cafeteria to the Student Body as a whole — but there are still a few to whom we would make our appeal.

Catering as it does to the student and his tastes, The Cafeteria has always operated with an eye to his pocketbook as well as his inner man.

The combination of good food well cooked plus economy in price is our basis of operation.

ECONOMISTS GATHER IN OPEN MEETING

Students and Outsiders Invited To Attend.

E. W. BEATTY PRESIDES.

President of C.P.R. Will Be In the Chair During Meeting.

If you are interested in live current topics; if you desire information regarding the latest political and economic developments in the European situation; if you are anxious to form an opinion in respect to the great world problems of to-day, and in respect to the probable outcome of the present dilemma — you are well advised to be in attendance at the Union at eight-thirty this evening. But if you are content to shut your eyes to questions of prime importance, to ignore facts of immediate concern, to be satisfied without enquiring into the decisions of the world's great leaders — to-night's open meeting of the Political Economy Club would probably be of no attraction.

We use the subjunctive "would" advisedly, as we are convinced that there is not a student at McGill who will not be clamoring for an opportunity to enlighten himself on such matters, and consequently we feel assured that when Mr. E. W. Beatty, K.C., president of the Canadian Pacific Railway, takes the chair this evening that there will be a bumper audience cramping the comfortable lounge room of the Union.

The subject under discussion will be, "Allied Treatment Towards Germany," and embracing, as it does, phases of the problems before the European Capitals, will receive a very full and comprehensive consideration from Messrs. Common and Fife, who are delivering their papers before the club to-night. These papers will bring out the different aspects of the Peace Conference, the feasibility or folly of the imposition of a large indemnity upon Germany, and will explain, to some extent at least, the existing financial conditions.

This annual open meeting of the McGill Political Economy Club, to which any outsiders interested and every student, Science, Law, Arts or Medicine, is cordially invited, has always been the occasion of much interest around college and about town, and a most absorbing and profitable few hours are promised to any who attend.

Dr. Leacock may be relied upon to address a few words to the gathering, which should prove an additional (Continued on Page 4.)

PROF. HUGHES AT PHYSICAL SOCIETY

Second Lecture of Series on "Photo Electricity."

Last evening in the lecture theatre of the Macdonald Physics Building, Professor Hughes, of Queen's University, delivered the second of his series of lectures on "Photo Electricity" to a very delighted and attentive audience.

The lecturer took up the effects of bombardment of the atoms and molecules of gases by electrons emitted from an incandescent filament.

Professor Hughes pointed out during the course of his lecture the conflicting opinions of various investigators on what actually takes place when atoms or molecules were acted upon by electrons.

In only very few places were the interpretation of experimental results accepted by the various investigators and physicists.

The speaker pointed out the marvelous results obtained in the case of the investigation of mercury by Franck and Elmsporn.

The lecturer pointed out those puzzling points that careful investigations would clear up.

Professor Hughes is an authority on the subject of which he speaks, and will continue his series tomorrow night at 8 p.m., the last lecture taking place on Friday at 5 p.m.

What's On

TO-DAY.

5.30 p.m.—Faculty Representatives meet at Union.

CONSTITUTION CHANGES IN NEAR FUTURE

Meeting of Students' Society To Be Held Soon.

DENTAL REP.

Successful Candidates Will Be Introduced To Students.

According to the constitution of the Students' Society, due notice of any amendments to be discussed before a meeting of that body must be given before the time set for the meeting. For that purpose several proposed changes in the Constitution are here set forward. These matters will be brought up at the annual assembly of the students which is scheduled to take place on the sixteenth of this month.

Some time ago the Students' Council were approached by some representatives of the Dental Society with the request that the Faculty which they represented should have a member on the Council. It was pointed out to these men that before such action could be taken the Constitution of the Students' Society would have to be amended so that provision would be made for the representation of the Dental Faculty on the Students' Council. Notice was served that at the annual meeting of the Society they would propose an amendment.

It is hoped that some change will be made so that in future the books of the Undergraduate Societies will be audited by the auditors of the Students' Council. Each student entering the University pays a universal fee of ten dollars. Of this money one dollar is turned over to the Undergraduate Society to which the student belongs or which he is about to join. So far, no check has been kept on the books of the undergraduate societies nor on the moneys allotted to them. It is hoped that to safeguard the executives of the societies and to satisfy everyone that in future the books will be submitted to a regular auditing.

Owing to the increased cost of all things and to the great expenses incurred in regard to the stadium and other student holdings, it is thought that the necessity will soon arise of increasing the universal fee, which is now ten dollars. In most other universities the compulsory student fee is higher than this, and during the past few years the McGill Student Council has found it very hard to have a balance left at the end of the (Continued on Page 2.)

Wednesday night University of Toronto went down to defeat in Senior Hockey against Granites by the score of 2-1. The game was the first of a home and home series in the Allen Cup elimination, and was one of the fastest and most spectacular hockey matches witnessed for many years.

AWARDS ARE DECIDED BY MCGILL A.A.

Division Reached re Status of B., W. & F.

FACULTY HOCKEY.

M's Allotted to Winners of Bouts in Assault-at-Arms.

So much business had to be handled by the Athletic Association at last Tuesday's meeting that it was necessary to cease operations on account of hunger.

The following are the insignia awards passed by the executive:

B. W. & F. CLUB.

Large Plain M.

Boxing—

J. Edelberg, I. Com.
F. Shaekel, I. Com.
— Brewer, I. Com.

Wrestling—

— Bryant, I. Science.
H. Reid, II. Science.
D. M. McKeen, III. Science.

SKI CLUB.

Large Plain M.

N. Birks, Macdonald '21.

L. Reid, Com. '22.

R. Whittall, Sci. '24.

Small Plain M.

O. Owens, Science '23.

A. Glen, Science '22.

The following men of Arts '23 receive Grade "B" Numerals for having played on the winning team in the Class Hockey Series:

E. C. Amaron
R. Badger
G. H. Craik
D. F. Cantley
R. Duval
N. Egg
J. H. Hutcheson
D. M. Johnston
W. B. Allen

Two awards of small plain M's were made for special merit:

Martineau of the B., W. & F. Club.

H. Allen Wilson, for Water Polo.

The former was unable to take part in the Intercollegiate Meet owing to an accident to his hand, and the latter won an M in his Freshman Year for Water Polo, but owing to the war, is not physically fit to take part in further athletics.

After considerable discussion, the request of the B., W. & F. Club, to be given the status of a major sport with corresponding insignia awards, was refused.

The question of granting Numerals (Continued on Page 4.)

SKI FIXTURE FOR NOVICES

Three Events Will Be Held Saturday Afternoon.

On Saturday afternoon, starting at 2.30, there will be held three ski events, open to novices. Anyone who has not been on the ski team may compete. All who have been skiing this year should enter the three events, as this is an excellent chance to be told what you are not doing right. Members of the Ski Team will act as judges and officials, and will be only too glad to help all they can.

Competitors will meet at the Park Slide at 2.30 sharp. The Proficiency Test and the Dash will be held near there, and the Cross-country Run will start and finish there. The length of the Cross-country Run will be between one and two miles, and will be marked with red bunting.

In the Proficiency Test, each competitor will have to try a right and left Tellmark, a right and left Christiania, a snow plow, an S turn and possibly skating. Even if you cannot do these turns, enter and have a try. This is an excellent opportunity to learn.

Should the weather force the meet to be cancelled, notices will be posted in the Faculties by one o'clock Saturday.

Any members of the Ski Team who have not already been asked to turn out, please do so, and help see that this meet is a success.

Entry lists will be found at the Union, also at the various Faculties. All entries must be in by Friday at five-thirty.

INTERMEDIATE 'A' OUTPLAYED HIGHLANDERS

McGill Victorious By Score
Of 40-12.

EASY VICTORY.

Superior Shooting and Combination Responsible For Win.

In the Intermediate "A" Basketball League, McGill overwhelmed Highlanders at the Highlanders' Armories by a 40-12 score. Only in the first few minutes of play were the soldiers at all dangerous. When McGill struck their stride it was a very one-sided affair.

Turpel and Hilton starred for the collegians. The latter, though scoring no baskets, played a strong defensive game, and broke up most of the Highlanders' attacks. In the second half, Turpel really got going, and scored from all angles, tallying seven baskets and eight fouls. Blumenstein also worked hard.

For the losers, Black and Harris were effective. The home team, however, were poor shots, and seemingly not as fast as the college sextette. The game was fairly clean, and fast at times.

For the first ten minutes poor basketball was served up. Both teams fumbled continually and could not find the basket. McGill passes were constantly intercepted, and the score remained even. During the last part of the half, McGill began to play better, and soon drew ahead of their opponents. Brown scored well, but Turpel missed several easy chances. In shooting fouls, however, the latter was successful in about eighty per cent. of his chances. The half ended with the score 13 to 6 in McGill's favor.

The final period saw a greatly improved game. Starke and Murray came on for the Red and White, replacing Scharfe and "Chink" Brown. The score mounted rapidly, and Turpel put in basket after basket. Though the play was considerably faster, McGill found little difficulty in piling up the score. Turpel, Starke and Murray continually bombarded the soldiers' basket, and only occasionally did the Highlanders have a chance to shoot. The game ended with the score—McGill, 40; Highlanders, 12.

Line-up and individual points scored are as follows:

McGill	Highlanders
24 Turpel.....	Forward Ramsay
Scharfe.....	Forward Locke
6 Brown.....	Centre Harris
Hilton.....	Guard Pease
Blumenstein.....	Guard Brown
4 Starke.....	Sub. Gibbs
6 Murray.....	Sub. Black
	Sub. Campbell

R.V.C. ENTERTAINS CERCLE FRANCAIS

Societe Francaise Presents
Enjoyable Programme.

Last night the Cercle Francais at the guests of the Societe Francaise at a most enjoyable entertainment given at the R. V. C. Many members of both clubs were present and everything combined to make the evening a great success. The invitation of the Cercle a few weeks ago to the Societe was thoroughly enjoyed by all present, and last night's return entertainment was an equally worthy effort.

A delightful scene from Moliere's "Precieuses Ridicules" won the applause of all. Mademoiselle Touren took the part of Magdalen. Miss Dorothea Aylen appeared as Cathos and Miss Dorie Sharples as Mascarielle. The sparkling wit of the dialogue, the charm and vivacity of action of the actresses individually and collectively, all contributed to make this part of the programme an outstanding feature.

"Charades" appeared as another item, and here the wits of all were instantly set at work in an attempt to find the answer, whilst the eyes endeavored to appreciate the histrionic excellence displayed by all. The following took part:

Miss J. Matheson
Miss E. Palmer
Miss F. Higginson
Miss M. Brown
Miss F. Bauffill
Miss J. Campbell
Miss Murray

Then followed some quaint, old Breton folk-songs sung in costume. Several of these were new to the audience, but were none the less enjoyable, whilst others were received with evident delight as old favorites.

The party then adjourned to the dining hall, where they were regaled with simple but delectable dainties, after which an impromptu dance, in which everyone joined with much zest, brought this gay and festive evening to a delightful conclusion.

WATER POLO CHAMP. GAME FRIDAY NIGHT

Big Fixture With 'Varsity at
Central Y.M.C.A.

VITAL GAME.

McGill Team Is In Great
Form and Chances Seem
Good.

The last practice prior to the Polo game on Friday night was held yesterday afternoon. The team is in excellent trim, and the chances seem good to play back the score with Varsity and clinch another aquatic championship.

Unfortunately the authorities have not given permission for the Ladies' Water Polo game, which was expected to go on the same evening. This game was to have been a preliminary, and also an added attraction to the big Intercollegiate fixture. Other events, however, will be on the programme.

As the date for the Informal Dance coincides with the aquatic event, the game will be started promptly and played without any unnecessary delay. Enthusiasts who wish to take in both events will have plenty of time to do so.

The line-up will be as follows:
Forwards—Fish, Vernot and Parsons, all three of whom have been working hard together, and will form a very strong line, which should be able to withstand any opposition. The defence will be, Laidley and R. Foss. Both these men are also in perfect condition and ready to break up any onslaught. Walters, who has previously done great work in the nets, will be the goal-keeper.

Braker, Bastable and Munro, two of whom will be chosen for the spare bench, are reliable men, and are able to take up any position on the team. Tickets are on sale at the Union and Y.M.C.A. The game will be held in the Central Y.M.C.A. bath on Friday night at 8.15 sharp.

R.V.C. TO HOLD GREATEST EVENT

March 18 and 19 Are Dates
For Gym. Demonstration.

While you are thinking about Informal Dances, R. V. C. The Dancers and Alma Mater Proms, don't let them monopolize your attention to the extent of forgetting the most important event of the R.V.C. season—namely the Gym. Demonstration.

This is an occasion which you simply cannot miss. It will be held on March 18th and 19th, and it is up to you to keep one (or both) of the dates open, so that you will be able to witness the best—absolutely the very best—display of gymnastic talent that has ever been produced within the R.V.C.

The "Gymdem," as it is popularly called, is an ancient custom of the tribe of Donalds which has been passed on from generation to generation for ages past. It has been neglected for the past two years—but merely and solely "in cases of emergency." Now, once more, the custom has been revived, and will be performed in all its intricacy before a large and admiring audience. In fact, the prospects seem to be bright for such a large audience that if you are not very quick in securing your ticket of admission to the ancient and honorable festival of the Amasops and Terpsichoreans, you may be disappointed.

After the festive occasion, you will hear your friends and co-freres discussing with great avidity such mysteries as "clubs" and "wands," and unless you have been initiated into said mysteries, you may find yourself more or less flabbergasted, as it were. You might have visions of one-eyed monsters, and fairy queens, and elephant elfs, whereas—well, don't you think you'd better come and see for yourself what it all means?

First of all, you must see the merry maidens of the genus jockey of the tribe Donalds disporting themselves in happy wise over the horse. You must see the wily wavers of wands performing their tricks. Do not miss the dangerous rite of javelin-throwing when you will find yourself transported back to the realms of the Greeks.

Speaking of Greeks, you will see light-hearted, light-footed Grecian nymphs flitting to and fro, floating through the air like thistle-down.

There are old English ladies and Kate Greenaway gentlemen who will romp through a dance for you, and violent Russians who will stamp vigorously in their fetching costumes.

Enough of dancing—for the time being! To return to the gymnasts—don't you want to gaze with bated breath on the acrobats who will balance on one toe for you, at a height of two or three feet above the ground? And aren't you anxious to see large clubs revolving rapidly around

W. S. MAXWELL ADDRESSES THE ARCH. SOCIETY

A Highly Instructive Address
on Hotel Design.

CHATEAU FRONTENAC.

Extension and Additions to
Picturesquely Situated
Hotel.

At the meeting of the Architectural Society last evening, Mr. W. S. Maxwell gave a very interesting address on the problems of hotel design as encountered in the extensive additions now being made to the Chateau Frontenac. The problem presented to the Maxwell firm by the C.P.R. was to double the capacity of the Chateau Frontenac, and with this great enlargement to keep the corridor connections and elevator stacks within reasonable distances of access.

The Chateau was originally designed by Mr. Price around 1892, and since has been added to by Mr. Painter and Barret and Blackader. The resultant building as existing today is a rambling one—occupying what is considered to be the best hotel situation in Canada. The hotel stands on Dufferin Terrace, below the Citadel, and overlooks the St. Lawrence.

The hotel is found interesting by the guests on account of its situation, the more or less romantic character of the building itself, and a certain homelike atmosphere. This genial atmosphere was introduced by a Mr. and Mrs. Reed, who had charge of the hotel some years ago. Their rearrangements of the interior fittings resulted in the effect mentioned above.

Mr. Maxwell was highly appreciative of the romantic and other qualities of the building, but the additions and alterations made at different times had resulted in a very complex arrangement of corridors and elevators, etc., which made the problem of arriving at a convenient solution a very difficult one. In the old building as existing, a guest, to reach his room in a certain wing, may have to use two or three elevators, climb or descend stairs, and walk along interminable passages. This was unsatisfactory, and the solution decided upon by the Maxwell firm and the several others directly interested, was a central or administrative block, rising above the surrounding wings. A balancing wing is to be built opposite the Mount Carmel wing, and at the rear a laundry wing will join the two wings.

One of the other disturbing features in the old design problem was that two roadways had to be maintained through the building area. One was designed to pass in the rear under arches of the two wings, and the other was designed to pass under these same wings, and give direct access to the interior court and the new administration block.

The new block, together with floor level rearrangements, and a suitable disposition of elevator stacks, will give short and convenient ways to all parts of the hotel. With regard to the elevators, the ones to be installed will be the fastest in operation in Canada, and will travel at the rate of 600 feet per minute. A new micro arrangement will overcome the inconvenience of a poor elevator operator by automatically stopping the elevator at the exact floor level.

Also, the elevators, as they will travel at such a rate, safety factors had to be taken into account, and consequently the doors are so arranged that both the door of the landing and the door of the elevator have to be closed before the car can be put into operation.

A peculiar feature which it was necessary to introduce was a passageway about six feet wide connecting the new block with the front portion of the old building. This passageway rises several stories and is most certainly an odd feature, but it was a virtual necessity.

Changes and alterations will also be made in the old portion, which will make full use of the part of the building from which the best views can be obtained.

The new work will be carried out in much the same spirit as the old portion, that of the French Chateau of mediaeval times, with a few local touches of design and expression. The complexity of the whole problem—the fair—and dark—heads of the participants—and to marvel, open-mouthed, that they don't knock themselves out?

This is a mere glimpse into the future. It is no more than any common crystal-gazer could tell you. But if you watch carefully the columns of this publication, you may find yet other hints.

ALMA MATER DANCE TO BE HELD MARCH 11

Last Dance of Season Will
Also Be the Best.

BRILLIANT EVENT.

Dance Under the Students'
Council For Whole Uni-
versity.

There are still a few tickets on sale for the Alma Mater Dance which is to be held on March 11th. This is the last dance of the season, and the present outlook is that it will also be the best. The Alma Mater is the third and last of the McGill formal dances. The Junior Dance was under the auspices of that year, and was therefore restricted to the 1922 graduates. The Union House Dance was, likewise, under the Union House Committee.

The Alma Mater Dance, however, is a dance given by McGill for McGill. It is an All-University affair, under the auspices of the Students' Council. The dance committee is very busy preparing for the big event. The orchestra is going to be the very best that can possibly be secured. Special arrangements are being made as to the supper, which will surpass all previous standards.

An important feature that is not being neglected is the decorative scheme. Many novel features will be introduced, and the popular sitting-out-places will be cosier than ever. The Union on the great night will present a gorgeous appearance. Do not neglect this last opportunity to enjoy the most enjoyable dance of the season. The tickets can be bought from the secretary at the Union at the price of five dollars.

NEXT INFORMAL COMING FRIDAY

Usual Good Refreshments
and Orchestra—A Few
Tickets Left.

This Friday night will be held an important event of the week—the fourth informal dance of the year.

The three already held have been popular functions with good music and tempting floors, and this week's will be no exception. The limitation of the number of tickets, as in the previous dances, will prevent any overcrowding, and removes any chance of marring the evening.

The music will commence at 8 p.m. with the extra, followed by the same order of dances as before. Supper will be served in two divisions, the first after the seventh dance. An extra follows and then the second supper sitting.

Almost all of the tickets have been sold, but there are still a few left for the lucky individuals who get to the Union first.

Chub LeBaron's orchestra will be on deck with their up-to-the-minute selections, and, knowing the way they render them, the floor promises to hold that airy feeling through all fourteen dances. Monday's correspondence column should surely hold more pleas for longer dances when they are up to Friday night's standard. The dance will be graced by the patronage of Mrs. Tyndale, Mrs. Carruthers and Miss Hurlbutt.

The programme is as follows:—

Extra—One Step.
1—Waltz.
2—Fox Trot.
3—One Step.
4—Waltz.
5—Fox Trot.
6—One Step.
7—Waltz.

Refreshments.
Extra—One Step.

8—Fox Trot.
9—Waltz.
10—Fox Trot.
11—One Step.
12—Waltz.

Boost the "Daily" when you buy. And do your shopping early.

lem was more impressed on one's mind when Mr. Maxwell informed us that experts of nearly every profession will be called into consultation.

Hotel experts, acoustical experts, heating, plumbing, lighting, structural, etc., etc. The most difficult portion, apparently, is the kitchen, on the plan of which no two experts (namely chefs) agree.

After dealing with the many problems of the building, Mr. Maxwell urged the importance of sketching in perspective and working in clay and other valuable hints.

Mr. Maxwell's address was a very comprehensive one and gave every one present much to think about, and grave fears about the thinker ever becoming an architect.

The meeting was well attended, and the address was well received, as it was illustrated by drawings and photographs.

Mitchell, Evelyn G.—Mosquito life.

INTERMEDIATE 'B' WINS BY DEFAULT

Highlanders' Team Did Not
Turn Up to Play Basket-
ball Game.

The Intermediate "B" Team won a game by default from the Highlanders last night, as the latter team failed to put in an appearance at Molson's Hall, where the game was scheduled to take place. The Highlanders' team was short a couple of men, but they offered to play on their own floor. But as the McGill team's arrangements for playing on their home floor were completed they decided to take the game by default.

The Committee of Ciro's are extending the privileges of Ciro's to the Senior Undergraduates of the R.V.C. on Saturday afternoons for the "The Dansants" held weekly by the Club. This privilege is extended to the R.V.C. and McGill exclusively, and it is therefore asked that undergraduates will have their registration cards with them for presentation if requested.

The "The Dansants" is from 4 to 6.30 p.m., and the music for dancing is rendered by the popular "Ciro's Trio."

Amidst refined surroundings you will be able to spend a most enjoyable afternoon.

Reservations may be made by telephoning "Ciro's," Up. 8975, 186 Peel Street—Advt.

When you buy, mention the "Daily."

Letters of a Soph By Gen.

The dear old McGill,
March 2nd, 1921.

Dear Pa,—Your telegraph wire received by this morning's mail and in reply to same leave me rise to remark that every particular little thing in regards to my trial is perceived satisfactory. By crickey Pa, you gotta dish it out to the law students for standin' by me in my time of need.

When I was took up by an Iron of the law, "Sausage" McBeal, '21 Laws, passed the bucket and raised 5,000 stivers aside of so many minutes, and I was leave go on bale.

Jest the same Pa, there's birds round the McGill what's buckin' me tooth or nail, and if they could catch me up a back lane, they'd get me with the razor, allus providin' in course I didn't knock 4 or 5 on 'em out with the Whiffletree Wallop first.

You could've knocked me down with a ostrich plume when I seen on the McGill Daily Newspaper Journal that the old Court House up to home was consoomed by warm flames. This sure does beat Bannihur! I'm plumb tickled though that Judge Stobbins got outen the burnin' buildin' in the neck of time. Mebbe had he been readin' some of my funny jokes, he would have stuck where he was till he finished 'em—then where would he been—eh Pa! Even if the old court house did go up in smoke, don't run away with the idea that I been lashed to the mask. No sree! It's a case of Nero fiddles while Rose Burns!

Have you heard tell the beat of this? A couple days back, some dodos asted me would I give a gosh darn gee whizz did they get my letters to you printed in book formula and sort of pass them round. It appears they wanta paste the letters together in the shape of a book, givin' the procedure from the sale of the same to the Home for Tail-less Cats. I hummed or hayed a while, but when they said they'd put my picture on the cover of the dum book, I give in and said alright. I'll send you an auto-grass copy soon's it comes out. The only thing worryin' me is mebbe somebody'll get hurted in the rush when the books is placed on the news-stands.

I seen on your letter recent where Ma and sister Tess wants to come up to the trial next Tuesday. I'd be dum glad to have them come up, but looky here Pa, sposin' you should wanta go to a movie picture house, say the Gayety for the sake of argument, Ma and Tess'd want to go 'long and then where'n time would you be!

They do say that Mayor Mederle's goin' to be on hand the same's last year to give you and the boys a roll welcome when you get offen, the old Milkcan Special. He sure is a bong vivong and no mistake.

Well, guess I'll trot up to the old Law Kennel and smoke a couple Morgue Havanas. You're only allowed to use 'em in the last 4 seats. If the perfessor catches you smokin' in any seat but the last 4, like as not he'd dock you some marks in your exams. Guess little Si's too pert to get caught smokin' in any but the last 4, eh Pa.

Cordial,
SI.

AWARDS ARE DECIDED BY MCGILL A.A.

(Continued from Page 1.)
to the "All Star" Commerce team, as winners of the Inter-faculty games, was seriously considered. It was decided that nothing could be done this year, on the ground that it was unconstitutional. If the series proved as popular and successful next year, it was thought that the proper steps could be taken to make the award every year.

There was considerable comment on the extremely efficient way in which the Class Hockey has been handled this year. The executive desire to congratulate Wyatt Johnston on the good work and energy he has shown as Class Hockey Manager.

ECONOMISTS GATHER IN OPEN MEETING

(Continued from Page 1.)
drawing card, and there will be, as usual, an impromptu discussion.

All up, then, you Scientists and Meds, who may have rallied at the impracticability of Economics; turn out and see some of the practical applications. As for Arts, Law and Commerce, no student of these faculties is so well grounded in knowledge, that he can afford to miss such an opportunity as this—a meeting put on by a part of McGill for all McGill—presents.

THE DANSANT AT CIRO'S.

To the Senior Undergraduates at McGill, the management of Ciro's extend the privileges of the Club for Saturday afternoon's. These teas are held every Saturday afternoon at 4.30 in the Club rooms at 186 Peel street. Music for dancing will be rendered by the Ciro's Trio.

Undergraduates wishing to enjoy these privileges will kindly telephone their reservations to Ciro's at Up-town 8975—Advt.
